Each year the Saint John Board of Trade presents its Outstanding Business Achievement Awards. This year Dillon was selected as the winner of the *Business Excellence Award*. This award recognizes a local business that has achieved excellence in the following areas: outstanding sales growth, innovation, entrepreneurship, marketing, human resource development, community relations and the environment. The award was accepted by **Dave Creber** and **Holly McMackin** at the annual awards dinner on behalf of everyone at the Saint John office.

Our commitment to developing relationships with our clients, our several talent management initiatives (including our women's networking group [WINGS], The President's Crew, our mentoring program and Flexibility at Dillon), our partnering with local schools to help in literacy and learning programs, and our corporate environmental management strategy all factored into our selection.

Everyone at Dillon in Saint John was truly honoured by this award and we will nurture our business excellence by ensuring we continue to provide value to our clients.
