

# PEOPLE & PROJECTS

## GOOD FELLOWSHIP

*Gary Strong* and *Pat Wright* are now members of the prestigious “Engineers Canada Fellowship.” This honour has been bestowed upon them for their exceptional voluntary service to the engineering profession.

Engineers Canada created the Fellowship in 2007 to recognize outstanding contributions of individuals in the engineering fraternity. To qualify, recipients will have met some or all of the following criteria:

- assumed office as president of the Engineers Canada Board of Directors;
- assumed office as chair of the Canadian Engineering Accreditation Board of the Canadian Engineering Qualifications Board;
- served the engineering profession in a volunteer capacity for at least 10 years;
- served in a senior staff capacity within Engineers Canada or a constituent member for a minimum of seven years.

Both Gary and Pat now enjoy the privilege of using the designation of “Fellow of Engineers Canada,” or FEC.

Congratulations to Gary and Pat for this well earned honour, and for continuing to keep alive Dillon’s spirit of volunteerism and leadership support of professional organizations.
