

SPOTLIGHT ON SARI LIEM

4 August 2011

The Ontario Professional Planners Institute launched the *Spotlight on Planners Program* as part of their 25th anniversary celebrations. The spotlight for August is shining on **Sari**. Following is an excerpt from their newsletter:

Innovator, leader, trendsetter are just a few of the adjectives used to describe Sari and her approach to community and sustainability planning and community engagement. While planning and public health have traditionally been viewed as distinct disciplines, Sari recognizes the common ground between these fields - their complementary objectives for achieving healthy, strong and sustainable communities.

Through Sari's leadership and vision Dillon Consulting recently completed various projects to support the Ministry of Health Promotion and Sport's Healthy Communities Framework. Teams of professionals from a variety of disciplines collaborated on achieving tangible improvements in individual and community well-being.

CONGRATULATIONS SARI
