

PEOPLE & PROJECTS

SAINT JOHN ENERGY SECTOR BENEFITS BLUEPRINT

With an anticipated boom in the energy sector fast approaching, the City of Saint John, wanting to avoid the boom-and-bust cycle that often accompanies rapid economic growth, has implemented a strategy aimed at improving the quality of life in Saint John and gaining benefits from the expected economic expansion. The program will be known as the Benefits Blueprint. Preliminary funding has been secured from the federal and provincial governments, as well as Irving Oil - a valued client.

Holly McMackin, a planner out of our Saint John office, has been invited to act as the project coordinator for the working group, which will liaise with an advisory forum. These groups include a cross-section of individuals from Greater Saint John. The Blueprint will focus on:

Poverty Issues
Training and Education
Business and Supplier Development
Infrastructure
Arts and Culture
Workforce Planning
Economic Growth

Holly's high profile role enhances our growing reputation in the city and beyond.

CONGRATULATIONS HOLLY !
