

9 November 2010

Keeping stakeholders happy when we're responsible for construction inspection and contract administration seems to be a specialty our Windsor staff excel at.

Tight time lines, combined with multiple complexities were some of the challenges we faced on the City of Windsor (our client) Walker Road project.

The Windsor Christian Fellowship, one of the institutions abutting the construction works, had serious concerns over the course of the project due to the impacts on their members.

The sign in the above photograph thanking **Jay Herbert**, as well as the Coco team (the contractor), speaks volumes. Jay did an excellent job at keeping the property owners informed, and managed public concerns and contractor issues masterfully. **Rick Zangari**, **Marissa Mascaro** and **Flavio Forest** are the other team members whose contributions caused the City of Windsor to comment, on numerous occasions, that they seldom get phone calls about how well a project is going.
