

# What is the *SDS Law*?

The *Subdivision, Development and Servicing Law* regulates development and construction.

It makes sure that **all development conforms to regulations, safety standards, design guidelines, and Katzie's Land Use Plan.**

Poor construction and lack of building inspection leads to health and safety issues.

*Help us protect our future.*

**Planning construction?  
You may need to fill out a permit!**

**604.465.8961**

# Why do I need a permit?

Development Permits help us control and record the types of development happening.

**We need to know what you're building, so it's safe for you and your family!**

We make sure your project conforms with Katzie's *Land Use Plan* and meets BC Building Codes.

**Planning renovations?  
You may need to fill out a permit!**  
For more information contact:
